

IT Consulting Services

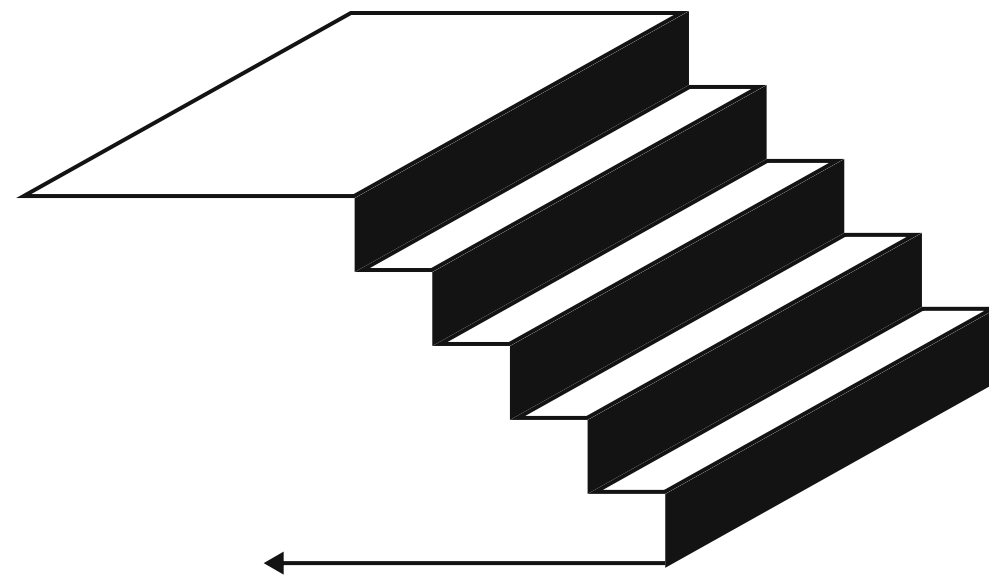

We help organizations align technology with their business goals.

Key challenges
slowing down
innovation

Challenge	Details
Scaling Challenges	Growing businesses require scalable IT infrastructure. Unoptimized systems lead to performance bottlenecks and hinder expansion.
Compliance & Security Risks	Need to track and reduce CO ₂ footprint, energy waste, and idle equipment usage.
Operational Inefficiencies	IT inefficiencies lead to high costs, system downtime, and wasted resources.
Cybersecurity Threats	With cyber threats on the rise, businesses must proactively protect sensitive data and ensure business continuity.

How Gart Solutions Helps

1. IT Audit & Assessment

- Full IT infrastructure audit (network, servers, cloud, security, monitoring)
- DevOps maturity assessment (CI/CD, automation, IaC, SRE readiness)
- Cloud cost & performance analysis
- Security & compliance gap review (ISO, GDPR, NIS2)
- Roadmap with quick-wins and long-term priorities
